EntheoGen

CHOOSE FIRST SUBSTANCE CLASS

Ayahuasca

CHOOSE SECOND SUBSTANCE CLASS

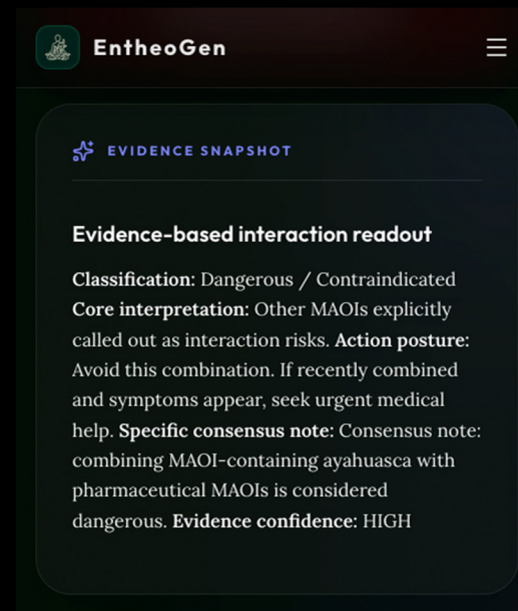

Pharmaceutical MAOIs

RESET CANVAS

DANGEROUS / CONTRAINDICATED

Potentially severe or life-threatening interaction risk; avoid.

ADD TO FAVOURITES

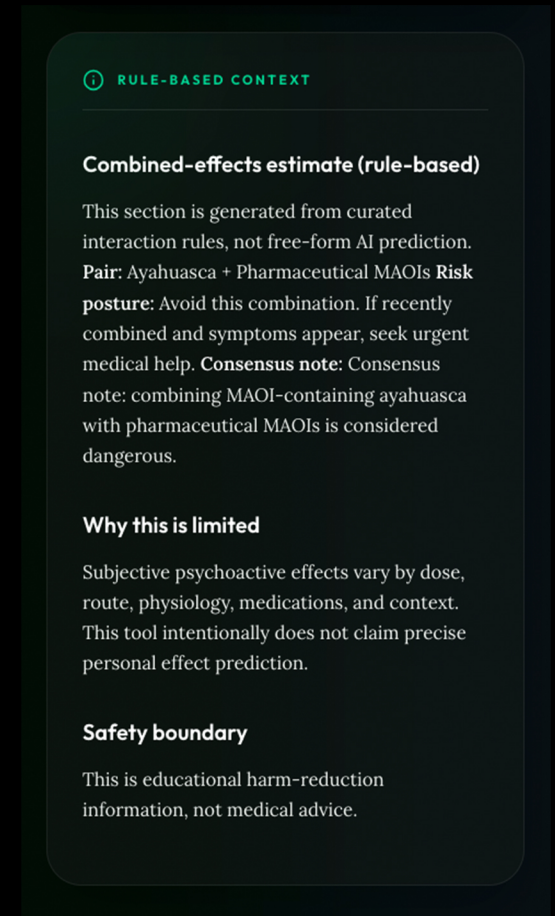

EntheoGen

EVIDENCE SNAPSHOT

Evidence-based interaction readout

Classification: Dangerous / Contraindicated

Core interpretation: Other MAOIs explicitly called out as interaction risks. **Action posture:** Avoid this combination. If recently combined and symptoms appear, seek urgent medical help. **Specific consensus note:** Consensus note: combining MAOI-containing ayahuasca with pharmaceutical MAOIs is considered dangerous. **Evidence confidence:** HIGH

RULE-BASED CONTEXT

Combined-effects estimate (rule-based)

This section is generated from curated interaction rules, not free-form AI prediction. **Pair:** Ayahuasca + Pharmaceutical MAOIs **Risk posture:** Avoid this combination. If recently combined and symptoms appear, seek urgent medical help. **Consensus note:** Consensus note: combining MAOI-containing ayahuasca with pharmaceutical MAOIs is considered dangerous.

Why this is limited

Subjective psychoactive effects vary by dose, route, physiology, medications, and context. This tool intentionally does not claim precise personal effect prediction.

Safety boundary

This is educational harm-reduction information, not medical advice.
